**Principal Consultant** | Claims, Forensic Analysis & Quantum determination

P.Eng., Q. Arb., ACI Arb., PMP, PMI-RP, C.Mgr.

---

## Short Bio

Mo is a civil engineer and project director with over 22 years of experience managing complex infrastructure and ICI construction projects. Throughout his years of experience, Mo gained a deep understanding of delay analysis, contract disputes, alternative dispute resolution, scheduling review techniques, and claim preparation.

Mo reinforced his experience with additional law and arbitration studies that qualified him to serve as an arbitrator in commercial and residential dispute cases. Mo is a qualified construction adjudicator in Ontario. Among other skills, Mo's expertise includes claim strategy, productivity analysis, Disruption of work claims and claims negotiation.

Mo's experience spans projects such as railways, high-rise buildings, airports, industrial buildings, and power stations. In addition, Mo worked with contract types such as FIDIC, JCT, and CCDC and Project delivery modes such as PPP, M&T, DB, PDB, and DBOT.

---
